- **Just 10€/day** (if you stay 2 weeks or more, shorter periods is 12,5€/day, month fare is 300€).

ALFAMA district is a pearl to be discovered...

The labyrinth of streets resembles a North African city, harking back to its rich Islamic heritage;

Alfama is the original settlement of the city and the most traditional district of the Old Town:

- some of the most visited monuments are at walking distance: Lisbon Castel, Sé Cathedral, National Pantheon

- cozy bars and pubs with international atmosphere are everywhere in the district

- Remnants of secular traditions: this is the place that gave birth to Fado; where the yearly city party takes place; the historical fishermen quarter;

- and even today, as in the past: white clothes hanging at the windows to dry, colorful flowers, legendary yellow trams winding up its narrow streets.

Our Hostel...

is on the ground floor, with a private courtyard and terrace and a stunning view over Alfama district, the Tagus River, and the "S. Vicente de Fora" Church and Monastery.

With a total capacity for 26 persons, our mixed accommodation comprises of 5 rooms.

Our facilities include a living room, Internet lounge (24h), fully equipped guest kitchen, 5 hot water showers (24h), and separate toilets for boys & girls.

We'll **help you** in your stay and guide through the City's Hot Spots, so that you won't miss the best that Lisbon has to offer. Upon request, Portuguese language lessons can be organized. We have a no smoking policy inside the hostel. But you can smoke outside, either in Patio or in the Terrace.

Ps...one of the oldest Universities in the World was founded here in 1290, and worked several years in our building.
