

2012.12.17

Greetings from the Research Center for Japanese Garden Art;

The Research Center for Japanese Garden Art, in Kyoto, Japan, runs an English language intensive seminar regarding the Japanese Garden. We are presently accepting applications for the fifteenth annual seminar to be held in August of 2012, here in Kyoto. The course is designed for the serious student, amateur or professional; it is not a garden tour. It will include many on-site lectures as well as some hands-on work experience. This course is a rare opportunity for English language speakers, giving broad access to Japanese gardens and gardeners.

Details about the Seminar can be found on the Seminar website listed below. If you have any additional questions, please contact us at the Research Center. If you want to communicate directly in English you may also contact Mr. Marc Keane at the address listed below.

Thank you.

Yours sincerely,

石崎博正
