

## **Current Scientific and/or Professional Activities**

Working within the FORCHANGE (Forest Ecosystem Management Under Global Change) group at the Centro de Engenharia Florestal - Instituto Superior de Agronomia. Lisbon (Portugal).

Lecturer at the Instituto Superior de Agronomia, in the Master in Forestry and Natural Resources. Subjects:

- Ordenamento e Gestão Florestal (Forest Management and Certification)
- Gestão dos Recursos Naturais (Natural Resources Management)

## **Academic Degrees**

2007 - PhD. Degree (Agr. and For.), Faculty of Forest Sciences, University of Joensuu. (Finland)

2005 - M. Sc. degree in Agricultural Engineering. University of Lleida (Ingeniero Agrónomo)

2004 - M. SC. Degree (Agr. and For.) specialised in Environmental Management of forests.

2002 – M. SC. Degree in Forestry engineering at the University of Lleida (Ingeniero de Montes)

1998 - Bachelor Science in Agricultural engineering at the University of Girona (Ingeniero Técnico Agrícola).

## **Area of Scientific Activity**

Methods for forest management including economic, social and ecological aspects in a context of global change (climate, socio-economic changes...).

Development of information and decision support systems (DSS) for forest project evaluation and for strategic, tactical and operational management planning.

Development of methodologies to formulate forest management plans targeting multiple objectives, multiple decision makers and different risks (e.g. fires).
