[Overview](#)[Edit CV](#)Vítor Manuel Delgado Alves
[End session](#)

Overview

1. Personal data

Full Name

Vítor Manuel Delgado Alves

Fiscal ID number

209976918

ID document

10557849

Birth date

31-12-1975

National of

PORTUGAL

Gender

M

Work addressCEER - Biosystems Engineering, Instituto Superior de Agronomia, Universidade Técnica de Lisboa
Tapada da Ajuda
1349-017 Lisboa
PORTUGAL**Residential Address**Rua dos Castanheiros, nº 20, 2º Dto
2810-035 Almada
PORTUGAL**Work Phone**

21 365 35 46

Residential Phone**Email**

vitoralves@isa.utl.pt

Fax**Cell phone**

963854564

URL

2. Academic degrees

Year: 2004

Degree: DOUTORAMENTO

Final grade: Approved with unanimity

Degree granting institution Universidade Nova de Lisboa

School/College/Campus Faculdade de Ciências e Tecnologia

Thesis title Fruit juice concentration at low temperature using membrane contactors

Supervisor:

Co-supervisor:

Scientific area Chemical Engineering, Unit Operations and Transport Phenomena

Number of curricular years 0

Program title Doutoramento

Year: 1998

Degree: LICENCIATURA

Final grade: 16

Degree granting institution Universidade Nova de Lisboa

School/College/Campus Faculdade de Ciências e Tecnologia

Thesis title Project: Production process of trifluoridine

Supervisor:

Co-supervisor:

Scientific area Chemical Engineering

Number of curricular years 5

Program title Chemical Engineering

3. Previous activity and current status

Period	Position, professional rank or activity	Institution
From July 2009 to present	Assistant Researcher	CEER - Biosystems Engineering (Centro de Estudos de Engenharia Rural) Instituto Superior de Agronomia, Universidade Técnica de Lisboa
From January to June 2009	Assistant Researcher	Laboratório Associado para a Química Verde: Tecnologias e Processos Limpos, Centro de Química da Universidade do Porto (REQUIMTE/CEQUP)
From January 2006 to December 2008	Post-Doctorant	Instituto de Biologia Experimental e Tecnológica
From August 2004 to December 2005	Invited Assistant Professor	Faculdade de Ciências e Tecnologia da Universidade Nova de Lisboa
From February 1999 to February 2003	PhD student	Faculdade de Ciências e Tecnologia da Universidade Nova de Lisboa

4. Area of scientific activity

Chemical Engineering - Membrane Separation Processes

Food science and technology

Transport phenomena.

5. Present research interest

Domain of specialization

Membrane Separation Processes. Membrane Contactors. Application in fruit juice concentration. Modelling of mass and heat transfer.

Current research interests

Development of biodegradable films using biopolymers, either recovered from fruit residues and algae (e.g. carrageenan and pectin), or produced by fermentation processes (polyhydroxyalkanoates and polysaccharides). Preparation of films with enhanced water resistance. Characterization of the films and the study of their application in packaging (including active packaging for food products), solvent resistant membranes, mulching films and water soluble capsules for detergents.

Bioactive edible coatings for food products.

Recovery of bioactive compounds from industrial residues and renewable resources, and their stabilization for food applications.

Screening of the applications of microbial biopolymers, namely the applications of a new exopolysaccharide produced from glycerol-rich product from biodiesel industries. Rheology.

Membrane separation processes.

Other professional interests/activities

Technology transfer: collaboration with Industries, patent writting.

Experience in pilot scale operations:

- Processing of aqueous solutions by Ultrafiltration, Nanofiltration and Reverse Osmosis, for treatment of aqueous streams and/or recovery of valuable compounds.
- Water refrigeration in packed towers with forced convection.

Participation on science divulgation activities to the non-scientific community, such as ExpoFCT (FCT-UNL) and Dia da Química (DQ-FCT/UNL).

Initiation course to wine tasting, Associação Portuguesa de Jovens Enófilos (ISA/UTL), 2009.

Course of Apiculture, Unidade de Investigação de Sivicultura e Produtos Florestais, INRB, I.P., 2009.

Member of the sensory panel of Prosense Lda.

6. Experience as scientific adviser

Co-Supervision of PhD Thesis:

Cristiana Torres. Valorization of Industrial By-Products for the Production of Biopolymers. FCT/UNL (on-going work). Supervised by Prof. Dra. Maria Reis.

Supervision of Master degree thesis:

Telma Rodrigues, "Preparation and characterization of biodegradable membranes", FCT/UNL, 2008

Co-Supervision of Master degree thesis:

Ana Rita Ferreira, "Preparation and characterization of films obtained from microbial biopolymers", FCT/UNL, (on-going work).

Co-Supervision of research studies of Ph. D students from other Universities:

Balazs Koroknai, University of Kaposvar, October 2003, "Fruit juice concentration by osmotic evaporation in membrane contactors".

Petra Cserjési, October 2007, University of Kaposvar, "Production of biohydrogen and recovery using membrane processes".

Supervision of undergraduate research projects:

"Biodegradable films for food products", Nuno Costa, 2005.

"Bioethanol recovery by membrane distillation", Ana Rita Lima, 2005.

"Determination of heat transfer correlations for the membrane distillation process using membrane contactors", Patrícia Tavares, 2004.

Supervision of the Sócrates-Erasmus Programme research project:

"Development of biodegradable films for food applications", 2004.

7. Participation in R&D projects**Participação em projectos de investigação (coordenador/membro de equipas)**

Participation as a team member:

Biohydrogen production and recovery using membrane processes. Bilateral cooperation project ICCTI/OMFB Portugal- Hungary June 2006 – June 2008

Production of biopolymers from glycerol, a by-product from biodiesel production. Suported by ENERSIS, 2005-2008.

Fruit juice concentration by osmotic evaporation using membrane contactors. Bilateral cooperation project ICCTI/OMFB P9/01, Portugal- Hungary, January 2002 - January 2004. Coordinator: Prof. Isabel Coelhoso, FCT/UNL, Portugal.

Development of edible films for food products using low value natural resources, POCTI / EQU / 45595 / 2002; 2003-2006. Suported by Fundação para a Ciência e a Tecnologia.

8. Prizes and awards received

Year	Name of the prize or award	Promoting entity
2008	Solvay Prize of SHIC'08 – Solvay & Hovione Ideas Challenge 2008	Solvay and Hovione
1999	Best Chemical Engineering Student, 1997/1998.	Faculdade de Ciências e Tecnologia da Universidade Nova de Lisboa

9. Published works

Teses

Vitor Alves, "Fruit juice concentration by evaporation at low temperature using membrane contactors ", PhD Thesis, Universidade Nova de Lisboa, 2004.

Capítulos de livros

V.D. Alves, I.M. Coelhoso, Osmotic evaporation: A new process to obtain juice concentrates, em Ingeniería de Alimentos. Nuevas Fronteras en el Siglo XXI, Volume III, Editorial de la UPV (2003) 13.(I.S.B.N. 84-9705-399-0)
