GRANTS AVAILABLE

JOINT EUROPEAN QUALIFICATION

Vinifera EuroMaster allows unique academic joint competence and qualification in Viticulture, Enology and Economics. It is organized by a Consortium of six European partners from : France, Italy, Germany, Portugal and Spain, major producing countries of quality wine in Europe. These partners represent well known academic institutions of higher education and research in wine and vine sectors. They are among the few institutions offering multidisciplinary courses at Master level, ranging across viticulture, enology and related socio-economic sciences.

- . France : Montpellier SupAgro + ENITA Bordeaux
- . Germany : Justus-Liebig University of Gressen, the Fachhochschule Wiesbaden -Fachbereich Geisenheim and the Geisenheim Research Institute
- . Italy : Consorzio delle Università di Torino, Milano, Palermo, Foggia, Sassari + Consorzio delle Università de Udine, Padova, Verona
- . Portugal : Universidade Técnica de Lisboa - ISA + Universidad de Porto
- . Spain : ETSIA – Universidad Politecnica de Madrid

Vinifera EuroMaster teaching language in the first year is English. Language training of the two hosting countries is provided.

The first two semesters of *Vinifera* EuroMaster are based in Montpellier, in the South of France.

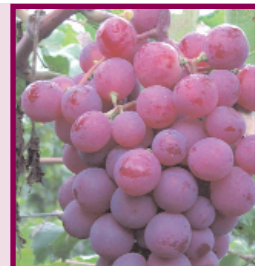

The third and fourth semesters take place in another one of the Consortium member of the student's choice. The fourth semester is dedicated mainly to the Master thesis.

Vinifera EuroMaster combines an international blend of : university lecturers, professors, wine & vine specialists, enologists, viticultors, researchers, biologists, chemists, economists, and professionals working across the board of viticulture, enology & socio-economic fields. Tastings, field trips, sensory analysis, conferences and workshops form the core of the teaching methodology applied.

Non European applicants might be eligible for Consortium Grants of 10 000 euros for the first academic year, awarded to best performers applicants.

European applicants might be eligible for *Languedoc-Roussillon* Region Grants of 3600 euros for the first academic year, equally awarded to best performers.

Successful students are awarded the Joint Master Degree: European Master of Science (M. Sc.) of Viticulture and Eonology, delivered by the six European Consortium members.

ACADEMIC PROGRAMME OVERVIEW

YEAR 1 : CORE STUDY PROGRAMME = 60 ETCS

Intro-1 Vinifera EuroMaster & Knowledge Assessment
Intro-2 Fundamentals for Enology
Intro-3 Fundamentals for Viticulture
Intro-4 Fundamentals for Economics

Lang- French Language
Lang- 2nd Language Improvement

Core-1 Experimental Methodology and Statistics
Core-2 Vine Morphology and Physiology
Core-3 Grape and Wine composition
Core-4 Vine Ecology
Core-5 Wine Microbiology and Fermentations
Core-6 Vine Pests and Control

Core-7 Wine Making
Core-8 Vineyard Management
Core-9 Wine Analysis and Sensory Analysis
Core-10 Applied Economics
Core-11 Diversification of Products
Core-12 Vine Genetics and Varieties
Core-13 Terroir Sciences + Study Visit

YEAR 2 : ELECTIVE MODULES & MASTER THESIS = 60ETCS

Vinifera Partners Institutions Mobility : according to partner's universities' programmes : mandatory & optional study modules, possibly with inclusion of an internship and / or research project, and also preparation of Master thesis.
